Dear Mr. Steele:

Re: Request for Information, Nebo Gypsum Mine, M/023/014⁵, Juab County, Utah

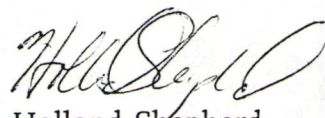

The Division of Oil, Gas and Mining will be involved in the permitting of your proposed mine operation in Gardner Canyon. Please contact us at your earliest convenience in this regard.

The Division will require the submission of a Mining and Reclamation Plan which must be approved before mining commences. Also, a reclamation surety is required before commencement of mining.

You will not be asked to duplicate efforts made with the U. S. Forest Service (USFS), Spanish Fork Ranger District. However, the Division's requirements include private as well as state and federal properties. Your plan must include all areas to be disturbed. If areas to be disturbed, will not fall under the jurisdiction of the USFS, we must be informed.

We have contacted the Forest Service concerning the development of this mine and plan. We will work through them in reviewing the plan. If deficiencies arise, we will contact both parties. We will also work with the USFS in developing a reclamation surety for the site.

Sincerely,

Holland Shepherd
Reclamation Specialist
